

***Eurobase Insurance Solutions exhibits its leading
iSynergy application at the Middle East Reinsurance
Conference Doha, Qatar***

London, UK – 30th July, 2009: Eurobase Insurance Solutions will be exhibiting its Synergy branded insurance applications at the Middle East Reinsurance Conference being held in Qatar on the 28th and 29th of September 2009.

Visitors to the Euromoney/Reactions Magazine hosted conference will have the opportunity to view Eurobase's Synergy underwriting solutions range covering Reinsurance, Large Commercial, and General Insurance markets. Delegates will also be able to view Eurobase's recently launched iSynergy application. iSynergy is the innovative software feature to complement its already well established Synergy application. The new feature enables all users to bring together the essential real-time information that they need to support their role, on a single screen. For ultimate cost efficiency this same information can also be shared with brokers and other trusted parties, in a way that is personalised to them, making real-time workplace collaboration a reality.

With electronic trading involving brokers and carriers a key theme of the conference, Eurobase will be on-hand to show how processing efficiencies can be gained by connecting a market trading platform to Synergy in a controlled and seamless manner.

Maryann Fitzgerald, Insurance Sales Director, comments: "As a leading supplier of retakaful and traditional business software solutions which currently supports clients across the region, Eurobase is pleased to support the Middle East Reinsurance conference in Qatar.

For further details, please visit the conference official homepage at:

-Ends-

About Synergy:

Synergy is a flexible suite of insurance software solutions dedicated to supporting the needs of national and international underwriters and agents in the General Insurance, Large Commercial and Reinsurance markets.

Every insurance solution covers the complete life cycle of the business, including client management, underwriting, claims, reinsurance /retrocession, accounting and management information, and caters for a very wide range of classes, including property, motor, casualty, aviation, marine and other specialist lines; putting you in control of the entire insurance and reinsurance process.

About Eurobase Insurance Solutions:

Eurobase Insurance Solutions is a division of the Eurobase International Group. The group operates across a broad range of markets including insurance, reinsurance, financial services, IT consultancy, technical services and recruitment. Established in 1988, Eurobase's nearly 300 employees and contractors support clients throughout the world. Clients include market leaders such as Beazley, Hannover Group, Asia Capital, Primary Group, WestLB, Standard Chartered Bank, Dow Chemical Company and LogicaCMG. Eurobase prides itself on the strength of its partnerships with leading technology providers such as PwC, IBM, Oracle, Microsoft and Hewlett Packard. For more information, visit <http://www.eurobase-international.com>. Eurobase's recruitment arm Eurobase People provides specialist recruitment services to the insurance and reinsurance sector.
