

Statement of Capability

Financial Services

Eurobase People is part of Eurobase International Group, which for the last 21 years have been providing innovative software solutions and high-calibre IT recruitment services for Banking, Insurance and Consultancy clients around the world. This has afforded Eurobase People preferred supplier status for IT staff resourcing at a number of high profile companies.

Our current clients include technology investment banks, stockbrokers, global trading houses, asset management firms, consultancies and insurers.

Our consultants have specialised business expertise in these markets which allow them to take on permanent and contract assignments for all IT portfolios, research their database of referenced candidates and rapidly supply quality CV's for interview.

Our consultants regularly maintain strong up to date knowledge of the Financial Services market place gained through data mining of Financial Services related media and networking our contacts and candidates. We also have multilingual consultants ensuring that we are able to cover additional European countries outside of the UK including Italy, Netherlands, Spain, Germany and Belgium.

We are able to cover the majority of technical, business and functional requirements in technologies such as C#, VB, .Net, Java, SQL Server, Oracle and their associated platforms/infrastructures, as well as most trading applications like Murex, Openlink, Fidessa, Wall Street, Sophis and Summit.

Specific markets covered include:

- E-Trading
- FX / MM / Fixed Income Derivatives
- Commodities and Utilities
- Treasury Management
- Asset / Wealth Management
- Equities and Stock Loan / Brokerage
- Futures and Options
- Operations
- Risk Management
- Insurance (Lloyd's, London Market, General Insurance)
